### **DETAILED ACTION**

The abstract of the disclosure is objected to because it is over 150 words.

Correction is required. See MPEP § 608.01(b).

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-22 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It is unclear what structure is the first and second tongue member. The specification on pages 10-11 cite "the first tongue and groove member 46 consists of a first release groove 46a, a second release groove 46b, and an arcuate track groove 46c, the second tongue and groove member 56 consists of a first tongue member 56a and a second tongue member 56b that extend from the inner skirt surface 62". What is the first tongue member? What is the second groove member?

#### ***Allowable Subject Matter***

Claims 1-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
